

## Our Mission

AAPA is a non-profit Asian American Parent-based association which addresses concerns regarding our children's education, provides opportunities for the exchange of ideas on issues related to education, and organizes activities that support student development. AAPA fosters member involvement in all aspects of the educational processes, especially but not exclusively as it pertains to the needs of students of the Asian American community. AAPA encourages voluntarism in support of our schools' educational programs. AAPA promotes dialogue with school administration personnel and advances greater understanding between the general public and the Asian community.

## Services & Activities

**Assist in the development of program for the community** to help residents, especially the new members, become more effective and knowledgeable members of the community with better understanding of our educational process.

**Aid student development** in the areas of language, academic skills, interpersonal relationships, career development and leadership.

**Promote a positive presence and image of Asian Americans to the community** by promoting Asian American contributions to the community and participating in school activities, community activities, charities, etc.

**Advance participation in school and school district committees and school board meetings** to provide inputs in policy making, and support worthwhile programs especially but not exclusively as they pertain to the needs of Asian American students.
